

NOMAD

NOMAD Grills is a premium, high-performance, ultra-versatile charcoal grill & smoker – the perfect portable provision. For additional details on engineering, construction and application, visit NomadGrills.com

Advanced Thermal Architecture

Multi-layer construction + patented heat dissipating tech help keep outside shell temps remarkably low — enabling you to set your rig on a few unconventional surfaces like a wooden picnic table.

Anodized Finish

Chemical conversion process treats & protects aluminum surfaces for ultimate durability & corrosion-resistance.

Cast & Cambered Grates

Ultralight stainless steel grates are domed for extra coal clearance and superior strength & rigidity.

SureSeal Cookbox

Self-mating & gasket-free lid features for less leak, high heat retention and precision temp control.

Cast-To-Last™ Construction

Aluminum cookboxes are unibody castings lined with multi-directional heatsink fins and Type III anodization for efficient thermal management and increased part rigidity.

MagVent™ Air Controls

Vent sliders with high-temp magnets for optimal damper control plus no-spill mess mitigation & ash containment.

A Handle To Behold

Ergo-grip for super soft touchpoints and all-day carrying comfort. Solid-body cast construction and finely tuned tension.

Tel-Tru T-Stat

Integrated Tel-Tru MFG's bimetal thermometer for uncompromising accuracy and world-class workmanship.

High-Temp Silicone

Food-grade silicone for scratch-free surface protection (withstands temps up 550° Fahrenheit).

Convective AirFlow Configuration

Intake & exhaust dampers designed to distribute heat evenly to cook faster with less energy.

High Grate-To-Weight™ Ratio

Up to 425 square inches of cooking space packed into a 28-pound portable package — great for grilling on-the-go (15x burgers per side).

GrateGrip™

High-temp SmCo magnets lock grates firmly in place for rattle-free roasting.

—CLOSED—

Smoker Mode

28 pounds (with single-grate)

212+ square inches of cooking space

2 racks of ribs

—OPEN—

Grill Mode

31 pounds (with second grate)

425+ square inches of cooking space

30 burger patties
